MPA/166400

PRELIMINARY RECITALS

Pursuant to a petition filed May 28, 2015, under Wis. Stat. § 49.45(5), and Wis. Admin. Code § HA 3.03(1), to review a decision by the Division of Health Care Access and Accountability in regard to Medical Assistance, a hearing was held on July 07, 2015, at Wausau, Wisconsin.

The issue for determination is whether the Department erred in its denial of the PA for the Harvoni medication.

There appeared at that time and place the following persons:

FINDINGS OF FACT

1. Petitioner is a resident of Marathon County. She is certified for MA or BadgerCare Plus.

2. On or around 4/13/15, a prior authorization request was submitted on the petitioner's behalf for Harvoni, a non-preferred prescription drug. The cost is listed as \$60,000 for 8 weeks of tablets. The Division issued written notice of denial of that request on 4/16/15.
3. The Division's basis for denial is that the petitioner's condition does not meet the severity standards that the Division has set as a condition for approval.
4. Currently, the petitioner's hepatitis C has not advanced to any of the following stages:
 - Compensated cirrhosis
 - Metavir score of F3 or greater or evidence bridging fibrosis
 - Serious extra-hepatic manifestations of hepatitis C virus (HCV)

DISCUSSION

Federal MA rules do not require a state to cover prescription drugs; such coverage is at state option. 42 C.F.R. § 440.225. The Wisconsin MA program opted to pay for some prescription drugs. Wis. Admin. Code § DHS 107.10. Non-preferred prescription drugs must receive prior authorization as a condition of payment. *Id.*, 107.10(2)(d). In evaluating a prior authorization request, the program considers the authorization standards at § DHS 107.02(3)(e). Those standards include the requirements that the requested service be a medical necessity, appropriate, and cost effective, and that the existence of less expensive alternative services be considered. *Id.* The petitioner bears the burden of proving that these standards are met.

As an aid for consistent authorization request evaluation/approval for non-preferred, high-priced hepatitis C drugs, the Division's consultants prepared policy standards related to severity, which became effective in December 2014. Those published standards require that the patient's hepatitis C must have advanced to any of the following stages:

- Compensated cirrhosis
- Metavir score of F3 or greater or evidence bridging fibrosis
- Serious extra-hepatic manifestations of hepatitis C virus (HCV)

The Wisconsin MA program does cover the less expensive prescription drug Interferon for treatment of less severe hepatitis C complications. *Id.*, *Preferred Drug List-Quick Reference*. I conclude that the above policy is reasonable.

There is no dispute that the petitioner's condition has not deteriorated to the levels identified in the above policy.

The petitioner has not established that she meets the program's authorization requirements for Harvoni. The Division's position is not unreasonable, and it is therefore sustained.

CONCLUSIONS OF LAW

1. The requested non-preferred prescription drug Harvoni is not a medical necessity, nor is it the most appropriate or cost effective method of treating the petitioner's condition at this time.
2. The Division correctly denied the prior authorization request for Harvoni.

THEREFORE, it is

ORDERED

That the petition is dismissed.
